

HARI P

Full Stack Developer | React, Node.js & TypeScript

Chennai • haripanneer07@gmail.com • +91 6379478750 • [LinkedIn](#) • [GitHub](#)

SUMMARY

Full stack developer with hands-on experience building scalable enterprise web applications using React.js, TypeScript, Node.js, Express.js, Fastify, and PostgreSQL. Comfortable across the stack — from responsive, reusable UI components to secure REST APIs, authentication and authorization, payment integrations, and reporting pipelines. Has contributed to multi-tenant SaaS products, government portals, and enterprise line-of-business applications, with additional early exposure to data preprocessing and machine learning fundamentals.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, Java, SQL
Frontend	React 19, Vite, Angular, Tailwind CSS, Redux Toolkit, React Router 7, React Hook Form, Zod, HTML5, CSS3, Framer Motion, Recharts, Leaflet Maps, jsPDF, QR code generation
Backend	Node.js, Express.js, Fastify, REST API design, JWT & refresh-token authentication, Role-Based Access Control (RBAC), centralized error handling, request validation, Swagger/OpenAPI
Database & ORM	PostgreSQL, Neon Database, Prisma ORM, Drizzle ORM
Security	JWT, password encryption, RBAC, CAPTCHA integration, Helmet, rate limiting
Payments	Stripe payment gateway, subscription billing
Testing	Jest, Supertest
Dev Tools	Git, GitHub, Docker, Husky, ESLint, Prettier, lint-staged, Winston Logger

PROFESSIONAL EXPERIENCE

Full Stack Developer — *Stigmata Techno Solutions* July 2026 – Present

- Build scalable full-stack enterprise applications with React.js, TypeScript, Node.js, Express.js, Fastify, and PostgreSQL.
- Design responsive, reusable frontend components using React, Tailwind CSS, and TypeScript.
- Develop secure REST APIs and implement JWT authentication, refresh tokens, and role-based access control (RBAC).
- Integrate the Stripe payment gateway for subscription billing and one-off online payments.
- Design and manage PostgreSQL databases using Prisma ORM and Drizzle ORM.
- Build reporting features including PDF generation, Excel export, and Word document generation.
- Set up reusable form validation with React Hook Form and Zod.

Data Science Intern — *VCODEZ* Jun 2025 – Sep 2025

- Worked on data preprocessing, visualization, and machine learning fundamentals using Python, Pandas, and NumPy.
- Performed data analysis and produced statistical insights from client datasets.

Software Engineer Intern — *Nullclass Edtech Private Limited* Mar 2025 – Apr 2025

- Developed modules for a travel booking application using modern frontend technologies.
- Worked on responsive UI development and third-party API integration.

Junior Software Trainee — *Eagle Hi-Tech Softclou Private Limited* Jun 2024 – Jul 2024

- Built responsive web interfaces for client-facing applications.
- Contributed to frontend implementation and general UI improvements.

PROJECTS

Learn2Drive Academy — Multi-Tenant SaaS Platform *[React 19, TypeScript, Node.js, Express.js, Prisma ORM, PostgreSQL, Tailwind CSS, Stripe, AWS S3, JWT, Redux Toolkit]*

- Built frontend and backend modules for a multi-tenant SaaS platform, including JWT-based authentication and RBAC.
- Implemented the vendor registration workflow and integrated Stripe for subscriptions and payments.
- Added certificate generation with PDF export and a Leaflet-based map integration.

Tourist Exit Survey Platform — Government Project, St. Maarten *[React, TypeScript, Fastify, PostgreSQL, Drizzle ORM, JWT, IndexedDB, PWA, Recharts, ExcelJS, docx]*

- Built survey management modules and dynamic, configurable survey forms.
- Implemented offline functionality using IndexedDB and an analytics dashboard using Recharts.
- Added PDF, Word, and Excel export, QR code generation, and geolocation-enabled survey collection.

Tax Portal — Netherlands Government *[Angular, PDF generation]*

- Built one complete tax-filing form end to end, including PDF generation.
- Created a responsive UI that met government interface specifications.

SSCIVIL (L&T) *[Angular, .NET]*

- Developed two enterprise modules, including dynamic calculations driven by Excel-based formulas.
- Built input parameter screens, calculation cards, STAAD table maintenance, a review page, and PDF generation.

EDUCATION

B.Tech, Information Technology — St. Joseph's Institute of Technology, Chennai 2022 – 2026 | CGPA: 8.67 / 10

Higher Secondary (12th Standard) — St. Mary's Anglo-Indian Higher Secondary School 2020 – 2022 | 74%

SSLC (10th Standard) — St. Mary's Anglo-Indian Higher Secondary School 2019 – 2020 | 80%

CERTIFICATIONS

- Data Science for Engineers — NPTEL (Elite)
- Python for Data Science — NPTEL (Elite)
- Introduction to Front-End Development
- Design Thinker — NPTEL (Elite)

ACHIEVEMENTS

- 2nd Place, Hackathon — SIMATS Engineering (September 2024)
- 1st Place, Symposium — SRM Institute of Science & Technology and Sri Sairam Institute of Technology (August 2024)
- Research paper published in IEEE Xplore — "Hybrid Convolutional Plant Disease Prediction and Detection" (2026)
